APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

Since this application constitutes a proposed appropriation of water from Spring Creek to be diverted in Utah and stored in Nevada during the non-irrigation season from October 1st to April 1st of the following year, the permit hereunder is issued upon the presumption and with the understanding that the applicant has taken such steps as may be necessary under the Utah laws to acquire a right to divert the water within that state; and further that the permit is issued subject to such terms or stipulations as may have been imposed by the State of Utah relative to the diversion of water from said Spring Creek within its boundaries during the above mentioned period. The State reserves the right to regulate the use of water herein granted after same is conducted into Nevada.

A map will be required to be submitted with the proof of beneficial use under this permit showing, among other things, the increased storage capacity secured under this permit, together with additional land cultivated and irrigated thereby.

Proof of completion of work shall be filed before July 16, 1928

Application of water to beneficial use shall be made on or before

November 16, 1930. Proof of the application of water to beneficial use must be filed with State Engineer on or before December 16, 1930

Map filed April 3, 1925 (2 sheets) WITNESS MY HAND AND SEAL this 16th day of January, 1924. Canceled Oct. 11, 1928 because of failure to refile corrected application within statutory time.
